

# INDEX

TO VOL. XXXIV. (VOL. X. THIRD SERIES) OF THE AMERICAN  
JOURNAL OF PHARMACY.

Absorbing power of the roots of plants.....	155
Acetate of potassa .....	306
Acetic fermentation.....	220
Acids of benzoin.....	34
Acids and resin of benzoin .....	256
Action of porous bodies in inducing chemical combination.....	92
Action of water on commercial chloride of lime.....	260
Action of water on the mineral salts of vegetable substances.....	508
Active principles of Hydrastis Canadensis.....	308
Adulteration of camphor.....	189
Adulteration of tin foil.....	257
Alcoholic tinctures.....	381
Alteration of tincture of iodine and the means of preventing it.....	368
Aluminium, manufacture of.....	457
Albahi manna.....	547
Alloy, description of new fusible.....	219
Alkaline iodides and bromides.....	289
Alkaloids, process for extracting and investigating the poisonous.....	354
Alkaloids of Hydrastis Canadensis.....	495
American Pharmaceutical Association.....	93, 285, 286
American chrome iron ore.....	225
American Medical Association .....	382
Amount of silver used in photography.....	33
Amylic alcohol, purification of.....	139
Ammonium iron.....	332
Amomum fruits.....	549
Anderson, Dr. T., on the chemistry of opium.....	519
Analysis of carbonate and black-oxide of manganese.....	33
Analysis of brandy, remarks on the.....	118
Analysis of preparations containing prussic acid, &c.....	130
Analysis of the bark of Atherosperma moschatum.....	165
Analysis of Anacahuite Wood.....	34, 327

Analysis of chocolate.....	509
Anemone ludoviciana.....	300
Anilin, medicinal properties of sulphate of.....	62
Anilin, sulphate of.....	295
Anilin, poisoning by.....	448
Animal charcoal, new method of reviving.....	551
Antiseptic properties of ammonia.....	458
Arsenious acid, capacity of for bases.....	442
Arseniferous sulphur from the Solfatera of Naples.....	443
Artificial cherry-laurel water.....	132
Arsenuretted alcohol for objects of natural history.....	245
Aribine, a new organic base.....	395
Aspidine.....	35
Asbestos paper.....	225
Atropia, splitting of.....	33
Australian manna.....	547
<i>Baker, William C.</i> , on Baume Tranquille.....	22
Balsam of Copaiba of Trinidad.....	548
<i>Baldock, Mr. J. H.</i> , on the adulteration of tin foil.....	257
Bartram oak, note on the.....	122
Baume Tranquille.....	22
Baptisia tinctoria.....	310
<i>Bequerel, M.</i> , on electro-chemical coloring and the deposition of peroxide of iron on steel and iron.....	77
Beet-root salts used in the saltpetre manufacture.....	508
Belladonna leaves, on commercial.....	123
Benzine, its dangerous character.....	185
Berberin in Hydrastis Canadensis.....	141
Berberin in Xanthorrhiza apiifolia.....	356
<i>Berthelot, M.</i> , on the manna of Mount Sinai and Syria.....	71
Bile, its chemical characters.....	506
Bitter drops.....	208
<i>Blozani, Prof.</i> , on the capacity of arsenious acid for bases, and on some arsenites.....	442
Blue color from cotton seed oil.....	188
Borax in milk.....	35
Bromide of calcium.....	295
Bromide of lithium.....	295
Bromide of potassium.....	294
Bromide of sodium.....	294
Brandy, analysis of.....	118
Bryonitin.....	333
<i>Buckley, S. B.</i> , note on the Bartram oak.....	122
<i>Bullock, Charles</i> , on spurious extract of Jalap.....	113
<i>Bunsen, M.</i> , on rubidium and cesium.....	67
Butyric fermentation.....	222

Cæsium, a new metal.....	67
Calvert, Dr. F. Grace, on some applications of carbolic acid or hydrate of phenyle.....	159
Calcination of magnesia and means of testing its purity.....	522
Carbonate of iron, on sophisticated.....	24
Carbolic acid, some applications of.....	159
Carbolic acid, new use of.....	525
Caoutchouc varnish, on colorless.....	90
Cavendish Society.....	287
Castor in Germany.....	37
Cari-Montraud, M., on a new process for the preparation of phosphorus... ..	215
Caustic soda, on the preparation of pure.....	431
Caustic soda, preparation of by M. Woehler.....	526
Catalogue of the glass of the Philadelphia College of Pharmacy 1861-62..	95
Chloroform, preparation of.....	25, 42
Chlorate of potassa, as a remedy for foetid breath.....	188
Chloride of lime as an insecticide.....	364
Chocolate, analysis of.....	509
Chloride of lime, action of water on.....	260
Chinese galls, tannin of.....	253
Characteristics of the purity of chloroform.....	396
Chemical researches on the spontaneous decomposition of pyroxylin.....	401
Chemical characters of bile.....	506
Chemistry of opium.....	519
Chelidonic acid.....	328
Chlorophyll formed under electric light.....	59
Cinnabar, on the preparation of.....	167
Cinnamates and nitro-cinnamates.....	186
Cinnamon gardens of Ceylon.....	434
Citrine ointment.....	394
Citric acid, method of distinguishing tartaric from.....	507
Cinchona, growth of, in India.....	238
Cinchona bark.....	648
Cleansing and preservation of engravings.....	397
Coal in California.....	186
Coating of pills.....	316
Cobalt, tenacity of metallic.....	159
Cocoa, active principle of.....	406
Cocaine.....	406
Colchicin.....	348
Collodion, sinapic.....	321
Collodion, vesicating.....	320
Colloids.....	313
Coloring matter of <i>Sorghum saccharatum</i> , red.....	37
Colocynth.....	333
Colocynth, resinoid matter of.....	505
Colocynthin.....	136

Color-tests of strychnia, as modified by morphia.....	227
Color of wafers.....	327
Commercial belladonna leaves.....	123
Compound infusion of gentian.....	307
Cones of Cinnabar.....	510
Cones of iodide of sulphur.....	510
Cones of iodine.....	510
Cones of stramonium.....	510
Contributions to the history of naphthalin.....	236
Construction of basins and reservoirs unattackable by acid and alkaline solutions.....	367
Conversion of lactic into oxalic acid.....	445
Contrayerva root.....	545
Copper test for sugar.....	247
Cork, production of.....	541
Cream of tartar, solubility and purification of.....	39
Cream as a substitute for cod-liver oil.....	189
Croton erythraema.....	334
Crystalloids.....	313
Curiosities of leech culture.....	453
Culture of the elaterium plant.....	504
Decomposition of oxalic acid by light.....	216
<i>De Luca, M. S.</i> , chemical researches on the spontaneous decomposition of pyroxylin.....	401
Detection of paraffine in wax.....	34
Detection of strychnia.....	212
Detection of 1-1000th of a milligramme of quinia.....	334
Detection of arsenic by copper.....	350
Detection of picrotoxine.....	454
<i>Deville, H.</i> , on the preparation of hydrofluosilicic acid.....	223
Dialyser.....	314
Dialysis, remarks on.....	312
Diamonds.....	89
Diffusate.....	314
<i>Dorpet, M.</i> , on the adulteration of tincture of iodine and the means of preventing it.....	368
<i>Dorstenia contrajerva</i> .....	545
<i>Dorstenia Braziliensis</i> .....	545
<i>Draper, Harry Napier</i> , F. C. S., on oil of cajaput as a means of distinguishing between amber and copal.....	445
<i>Duffield, Samuel P.</i> , Ph. D., remarks on the analysis of brandy.....	118
Durability of hemlock wood.....	377
Effervescing carbonate of iron.....	157
Elaterium plant, culture of the.....	504
Electro-chemical coloring.....	77

Emery .....	187
Emplastrum ammoniaci, U. S. P.....	209
Emplastrum opii, U. S. P.....	210
Estimation of chlorine in organic compounds.....	332
Ether formed by fermentation.....	46
Eucalyptus dumosa.....	547
Eucalyptus manna.....	546
Eucalyptus viminalis.....	547
Euonymus atropurpureus, analysis of.....	385
Euonic acid.....	387
Euonymin.....	389
Examination of commercial sulphate of quinia for other alkaloids found in cinchona .....	417
Explosion in making phosphoric acid.....	187
Extractum gentianæ.....	36
Extractum belladonnæ.....	329
Extractum krameriæ.....	209
Extract of gentiana .....	175
Extract of jalap, spurious.....	113
Extracts, medicinal, taking belladonna as an example .....	169
Extracts, preparation of.....	249
Extracts, on a method of preparing certain.....	544
<i>Faber, John</i> , on the resinoid matter of colocynth .....	505
Fabrication of sugar .....	461
Falsification of balsam copaiba.....	396
Ferrated elixir of bark.....	204
Ferri subcarbonas.....	193
Fermentation, influence of silica acid on.....	32
Fermentation, acetic.....	220
Fermentation, viscous and butyric.....	222
Fixed oil and tannin of grape seed.....	89
<i>Firmenich, Magnus</i> , on the preparation of cinnabar.....	167
<i>Fluckinger, F. A.</i> , detection of 1-1000th of a milligramme of quinine .....	334
Fluid extract of ipecac.....	28
Fluid extract of senega .....	136
Formation of chlorophylle under electric light.....	59
Formation of fatty matter in olives .....	93
<i>Frazeria Walteri</i> , on the root of.....	23
Fruit of <i>Magnolia glauca</i> .....	31
<i>Frezenius, M.</i> , action of water on commercial chloride of lime, and remarks on its chemical constitution.....	260
<i>Furley's</i> albuminous coating for pills .....	137
Gallic acid in red wine.....	507
Gas furnace for chemical operations.....	46
Gleanings from the German Journals.....	327-32

Gleanings from foreign Journals.....	139
Gleanings and notices, pharmaceutical.....	318
Gleanings from the French Journals.....	506
Glycerine.....	329
Grape-sugar, test for.....	32
Granulation of medicines.....	324
Grandeau, M. L., on the presence of rubidium in certain vegetable substances.....	440
Griffin, John Joseph, description of a gas furnace for chemical use.....	46
Groves, Thomas B., on the preparation of extracts.....	249
Growth of cinchona in India.....	238
Ground flax-seed.....	211
Gore, B., on the origin and progress of the phosphorus and match manufactures.....	49, 145, 241
Hagner, Charles V., on ground flax-seed.....	211
Hanbury, Daniel, minor notes on the Materia Medica of the International Exhibition.....	545
Harrison, Wm. D., on <i>Magnolia glauca</i> .....	29
Heintzelman, Joseph A., on <i>syrupus stillingiae comp.</i> .....	206
Hermine.....	331
Hemihedritry.....	5
Higinbotham, W. R., on <i>Frazeri walteri</i> .....	23
Hirsch, B., on the preparation of chloroform.....	43
History of petroleum or rock oil.....	527
Horseley, John, F. C. S., estimation of the alcoholic strength of wines.....	65
“ “ on the copper-test for sugar.....	247
